THE MAN FROM B.U.N.G.L.E.

CAN YOU SAVE THE MAN FROM B.U.N.G.L.E.?

The man from B.U.N.G.L.E. has been trailing Doctor Doom, a merciless crook. But he finds himself at the mercy of the devilish doctor.

He is chained in an open boat and set adrift. And, not satisfied with this, his evil captor sets out with his hideous henchmen to finish-off the helpless agent.

The man from B.U.N.G.L.E. must escape. But can YOU see how? All the clues are in the picture—and if you give up, the answer is on Page 19.

Sergeant Joe and his patrol are escaping from the Germans in Greece in 1941, when they come across a strange time-machine which sends them back three thousand years to the time of the early Greeks. With their landing craft and an old tank, they sail with the Greeks to the Island of Lemnos, which has been invaded by Trojans . . . .

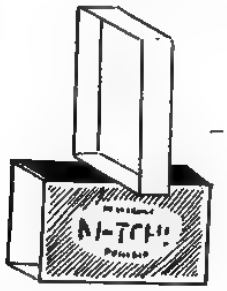
MEET... Mister Knowall

He knows everything there is to know about everything—and he's here to show you what a load of laughs it is to be a Knowall, too!

UNBREAKABLE MATCHBOX



Place an empty matchbox on the table in the way shown here and challenge anyone to smash it with their fist. They will think it's easy—till they try.
No matter how hard a fist is smashed down on it, it is impossible to break the box!

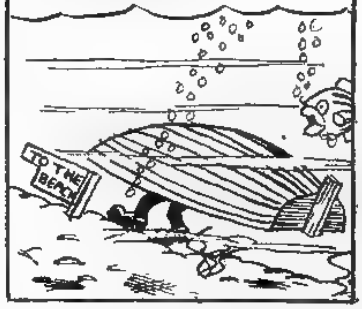
MAGIC DISC

Every colour in the rainbow is in this black and white disc. You don't believe it? Well, cut it out, paste it on a piece of stiff card and spin it gently on a pin in a bright light.

Smoking Fingers

You suddenly yell: "My fingers are on fire!" Sure enough, clouds of smoke are rising as you gently rub your thumb and forefinger together.
It's a smashing trick—and here's how it's done . . .
Beforehand, you peel the striking surface from a box of safety matches, and set light to it in a saucer.
After it's burnt away, you'll find it has left a brown liquid under the ashes. Wipe this liquid firmly on your thumb and forefinger.
Now, when you rub your finger and thumb together, smoke will be produced!

THE MAN FROM B.U.N.G.L.E



Swiftly, he begins to rock the boat, until it capsizes. The weight of the heavy chains makes it sink to the sea-bed. This creates an air-pocket under the boat, in which he can breathe. Now he walks along the sea-bed, with the boat inverted over him, until he reaches the beach.

UNDERWATER FIRE

Tell your pals you can make a candle burn underwater and they'll think you're crazy, but here's how you can perform this miracle.
Melt the bottom of a candle and stick it inside the bottom of a glass. Now, carefully pour in water till just the tip of the candle shows above the surface. Light the wick, and everyone will gasp with surprise as the candle slowly burns down below water level.
